Subject: 2/24 Meeting on Top 10 Issues

Hi Debbie. I just realized that you have invited the full EPA team to this meeting, which may not be needed. My vision is that this meeting will focus on Issue #9 (surface/subsurface contamination) and recap where things stand on Issues #3 (cost), #6 ICs/RNAs, #7 (fish advisories) and #8 (roadway impacts). I will be attending in person and Sarah G will participate by phone or in person. Matt and Alex will not be participating and we will not discuss SC compliance criteria. Can you confirm who will be participating from EPA?
